FOLIO

ONE CITY. ONE EDITION. EVERY DAY.

SOCIAL AND MOBILE COMPUTING FOR SHARED CULTURAL EXPERIENCE

One music Edition a day, for your city.

A named local curator. 8–12 sourced picks.
Each daily Edition ends at midnight.

WHY FOLIO

Four goals for finding your city’s music

01

A person, not an algorithm

A named curator chooses each Edition.

02

Put new local artists first

At least two new local artists in every Edition.

03

Make every pick accountable

Every pick has a reason and a linked source.

04

Keep listening calm

No likes, no ranking. A finite daily read.

THE LISTENER EXPERIENCE

Discover. Read. Connect.

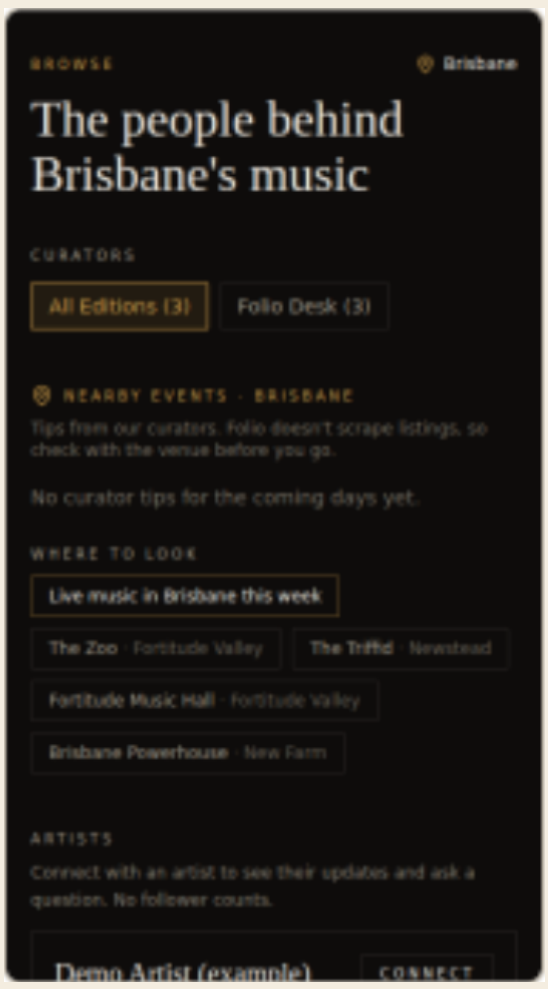

Today

The Edition and its named curator.

Liner Note

Why this pick is here, with a linked source.

Browse + Nearby

Discover curators, artists and local gigs.

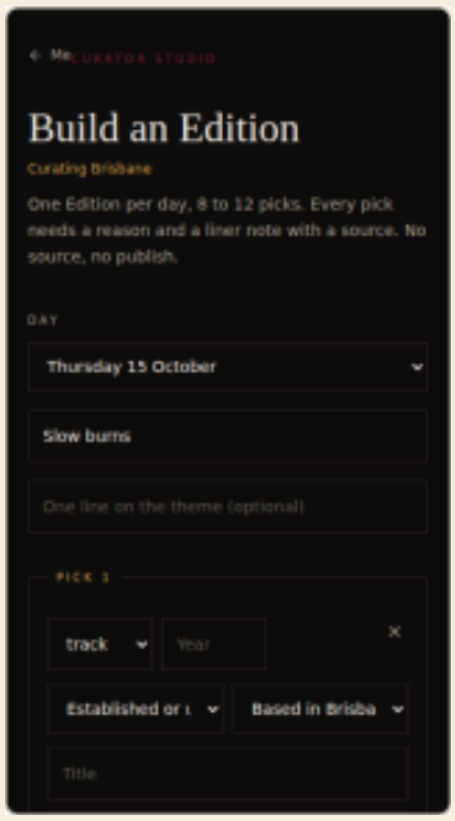

FOLIO

THE PEOPLE, PRINCIPLES AND PROCESS BEHIND FOLIO

SOCIAL AND MOBILE COMPUTING FOR SHARED CULTURAL EXPERIENCE

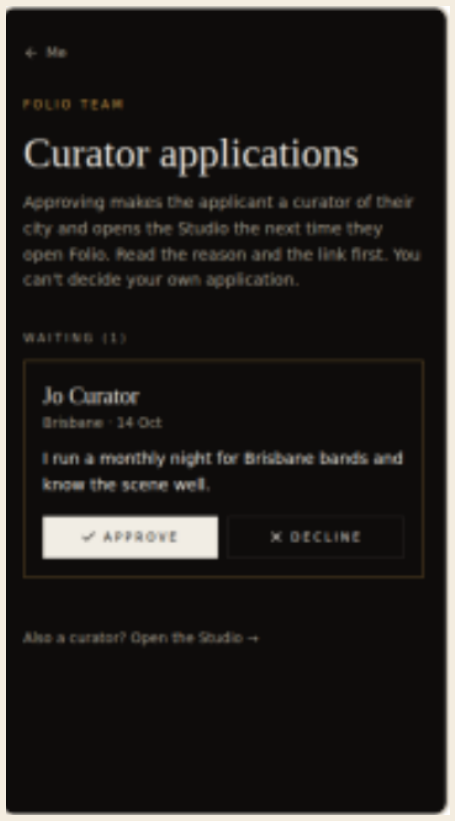

CURATION + COMMUNITY

Built by people. Shared with the city.

Build an Edition

CURATOR · Add picks, reasons and sourced liner notes.

Approve curators

FOLIO TEAM · Read applications and their reasons.

A DAY IN FOLIO

Open the daily Edition

Read 8–12 sourced picks, with a named curator.

Read, then done

A finite daily read. No endless feed.

Midnight: Edition ends

The day’s Edition closes and locks for the city.

SOCIAL + MOBILE IDEAS

3C model + awareness

You always know who chose the music.

Visibility vs privacy

No public counts or follower lists.

Location

Nearby gigs; location is never stored.

ETHICS BY DESIGN

Location stays private

Nearby uses location only in the moment.

Fans choose visibility

Names are shared only with their chosen artist.

Curators apply

The team reads the reason before approval.

OUR PROCESS · MOTIF TO FOLIO

MOTIF covered too many cultural niches, making its purpose too broad. We narrowed the concept to Folio, focusing on local music as a shared cultural experience.

01	02	03	04	05	06	07
